

Encapsulating Quality

Established in 1996, Captek Softgel International, Inc., is a privately-owned, FDA registered and audited, GMP-certified, full service contract manufacturer of custom Dietary supplement formulations.

Captek features high efficiency encapsulation lines capable of producing over 2.5 billion softgels annually from bovine, porcine, fish, or non-animal gelatin. The facility encompasses approximately 85,000 square feet of production, analytical laboratory, pilot laboratory and warehousing space. Captek fully complies with FDA cGMP's and has been certified by NSF International.
